

The following are references to historic district expansion included in the Historic West End LCI Plan:

“The neighborhood seeks to encourage development consistent with the historic architectural character of West End through the expansion of the historic district or special public interest zoning.” (page 21)

“Expand the existing West End historic district to include all areas encompassed within the National History Register [sic] as well as the RDA commercial corridor.” (page 38)

“Expand the historic districts to include the RDA commercial corridor.” (page 40)

“Revise historic district zoning to include performance standards for commercial properties.” (page 40)

Many times we have used the phrase, “retain or restore the historic fabric of the West End.”

Now let’s define what we **really mean** by this.

Then, let’s figure out if expansion of the historic district is the best way to go!
